JL,

No, I am so sorry. I should have detailed exactly what I meant in my updates email yesterday re: vending. Let me pause on the residential packets and get something together.

I understand it is a busy day for you, so in regard to the residential packets will of course do my best to address your questions and send your way for review.

Best,

LH

Any chance repurposing the letter to council from marie on vending got done? If not I can ask Priscilla do to it but today is hearing f so it must get done and should have ideally yesterday. And on second thought I'm not going to have time to meet this morning bc I need to do the talking points for the hearing today. It's going to have to wait until afternoon.
